

STELVIN® STELVIN®+

SCREW-CAPS for still wines

The qualities and performance of STELVIN® screwcaps are universally praised after 30 years experience of comparative testing and tastings of the worlds' greatest wines.

A genuine global phenomenon. Why do professionals prefer this closure?

- Aromatic freshness is preserved,
- In-bottle ageing is respected, for both red and white wine,
- Complete uniformity from one bottle to another,
- Easy opening and closing simplifying access to the contents,
- Easy storage whether upright or racked,
- TCA-free,
- Range of tailored liners.

STELVIN®

First in the range, the Stelvin® screwcap can take all types of printed decoration on the top and skirt.

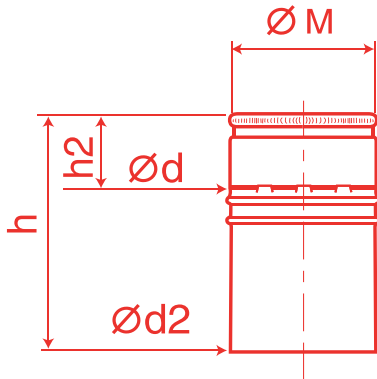

STELVIN®+

The drawn cap has inspired the use of embossed and high quality printing, giving the Stelvin® + closure worldwide popularity.

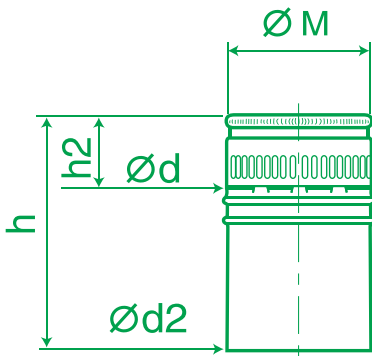

Suited to small and medium quantities, it satisfies the growing requirements of the major brands and châteaux.
