

STELCAP® STELCAP® + VERSALUXE®

CLOSURES / long skirt closure for alcohols.

STELCAP®

Go for this great classic, which now tops many alcohol bottles. Well-known and instantly recognizable, this long aluminum skirt closure offers many finish options to satisfy market requirements.

STELCAP® +

Choosing STELCAP® + means extra visibility and value. An embossed top and silk-screen printing on the skirt give your products a high-end finish. These new options are now available for the alcohol market.

Our options

POURER

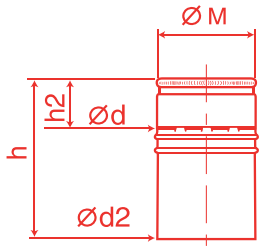

For liqueurs or crèmes, you can add a drip-free pourer to your bottles. This accessory comes in long-skirt closure to become VERSALUXE® closure.

NON-REFILLABLE POURER (NRP)

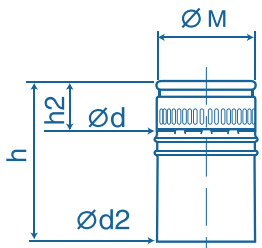

In markets particularly sensitive to counterfeiting, think about integrating the NRP inbore device in your capsule.

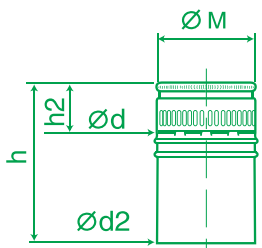

STELCAP® STELCAP® + VERSALUXE®

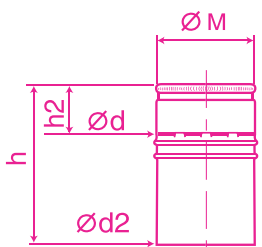

1 - Stelcap - Supalu profile
Double bead

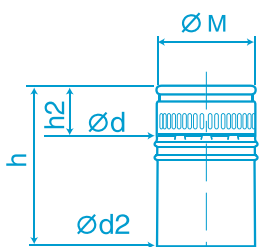

2 - Stelcap - double bead
Double knurl

3 - Stelcap - double bead

4 - Stelcap - double bead
knurl on the head

5 - Stelcap / Versaluxe
1 groove - 1 bead
Pouring device

Neck Finish: CETIE GME 30.06
CETIE GME 30.10

N.B. : H caps are fitted on the deep range finishes, and S caps are fitted on the STD finishes. In case of pourer VERSALUXE® or NRP the GME 30.10 finish must be followed.

Attention : where bottles are treated by satin etching or coatings the K or finish diameter must be adapted
